

FLORENCIA CONSOLE

PRODUCT OVERVIEW

The FLORENCIA Console explores the art of balance, where sculptural geometry meets functional design. Its striped leg, a fusion of travertine and polished metal, creates a rhythmic play of strength and softness.

Handcrafted in the UAE, it stands as a statement of proportion, material harmony, and quiet movement.

MATERIALS & FINISHES

The console features a walnut or oak veneer countertop in a satin matte finish, paired with a natural limestone or travertine left leg in a honed finish.

A crafted black and white stacked striped marble back leg adds contrast, while the front right leg introduces an interchangeable element, available in polished stainless steel, high-gloss electric blue, or high gloss dusty pink, allowing for material and mood variation.

THE INVERTI EFFECT

The Florencia Console adapts the INVERTI effect by integrating into the console introducing a concept of transformation through material and form.

By selecting varied finishes, tones, and textures, the piece shifts effortlessly from BOLD, with contrasting materials and high-shine metal, to SOFT expressed through matte stone and muted woods. Its defining feature, an inversible leg accessory, can be rotated or interchanged to alter the console's rhythm and balance, allowing it to evolve with its setting while preserving its sculptural integrity.
